# 69TH ELECTRONIC MATERIALS CONFERENCE

JUNE 23 - 25, 2027 || UNIVERSITY OF MINNESOTA

## CALL FOR PAPERS

### IMPORTANT DATES

**November 2, 2026**
Submission Site Opens

**February 12, 2027**
Abstracts Due

**March 19, 2027**
Author Notifications

**April 23, 2027**
Late News Deadline

**May 14, 2027**
Discounted Registration Rate Deadline

### ORGANIZERS

**Conference Chair**
Adrienne Stiff-Roberts
Duke University

**Program Chair**
Stephanie Law
Pennsylvania State University

**Treasurer**
Mark Wistey
Texas State University

**Secretary**
Mona Ebrish
Vanderbilt University

The Electronic Materials Conference (EMC) is the premier annual forum on the preparation, characterization, and applications of electronic materials. EMC provides a unique opportunity for researchers from academia, government labs, and industry to meet and share the latest cutting-edge results across the broad range of fields under the umbrella of electronic materials. Held June 23–25, 2027, this year's event will feature a plenary session, topical sessions, a poster session, and more.

EMC is coordinated with the Device Research Conference (DRC), which will be held during the same week as EMC, from June 20-23, 2027. The colocation and overlap of DRC and EMC underscores the strong interdependence of device and electronic materials research and provides opportunities for the fruitful exchange of information between attendees of both Conferences.

### Topics of interest:

- Electronic Materials Science and Technology
- Energy Storage and Conversion Materials
- Nanoscale Science and Technology
- Organic Materials, Thin Films, and Devices
- Oxide Semiconductors and Dielectrics
