CALL FOR ABSTRACTS

IMPORTANT DATES*

February 2, 2026
Full & WIP Paper Abstract Submission Deadline

February 13, 2026
Full & WIP Paper Abstract Acceptance Notification

February 23, 2026
Alternative Session Proposal Deadline

March 13, 2026
Alternative Session Proposal Acceptance Notification

March 23, 2026
Full & WIP Preliminary Paper Submission Deadline

May 4, 2026
Alternative Session Paper Submission Deadline

May 8, 2026
Notification of Full & WIP Paper Revision Requirements and Acceptance Notification

May 22, 2026
Alternative Session Paper Acceptance Notification

June 15, 2026
Revised Full & WIP Paper Submission Deadline

June 29, 2026
Alternative Session Revised Paper Submission Deadline

July 10, 2026
Final Acceptance Notification for all paper and session types

July 20, 2026
Final Camera-Ready Paper Submission for all paper and session types & Copyright Deadline

CONFERENCE THEME: ENGINEERING AND COMPUTING EDUCATION IN THE LARGE LANUGAGE MODEL ERA

We encourage authors to consider the FIE 2026 theme for submissions.

The conference features peer-reviewed papers (Work-in-progress (WIP) and Full papers), special sessions, pre-conference workshops, and panels across all engineering and computing education disciplines.

Authors are invited to submit Extended Structured Abstracts for the Full and WIP tracks, and Proposals for Alternative Session tracks (workshops, panels, special sessions).

The main tracks (along with some examples) as well as submission instructions for the FIE 2026 conference are listed on the conference website at **fie-conference.org/2026**.

FIE welcomes Full Papers up to nine-pages and Work-in-Progress Papers up to five-pages. The work-in-progress and full papers can be categorized into the following categories:

1. **Innovative practice**
2. **Research to practice**
3. **Research**

Work-in-progress papers are typically in frontier areas where it is understood the work is in an early or intermediate stage and authors are seeking feedback from the community. Further, FIE welcomes proposals for panels, pre-conference workshops, and special sessions in order to disseminate scholarly efforts in non-traditional ways.

Abstract submission deadline: January 26, 2026.

FIE 2026 is scheduled as an in-person meeting on October 11-14, 2026. For each accepted paper, one author must register and participate in the conference.
