

IEEE ISSE 2026

12th IEEE International Symposium on Systems Engineering
Dubrovnik, Croatia | September 22–24, 2026

Student Workshop

Workshop Co-Chairs

Prasanta Ghosh
Syracuse University

Stephanie White
Long Island University

Bozenna Pasik Duncan
University of Kansas

Tamara Petrović
University of Zagreb

Stjepan Bogdan
University of Zagreb

Registration Information

Registration Deadline
August 15, 2026

Abstract Submission Deadline
July 15, 2026

Acceptance Notification
July 31, 2026

Eligibility Requirements

- Students from all disciplines are invited to participate.
- At the time of the conference, presenters must be enrolled as undergraduate/graduate students.
- Note:** *Students who wish to submit a full paper for publication should submit their short or long paper via the main Technical conference paper submission process.*
- Both individual and team submissions are welcome. *Team submissions should note the presenter and a primary contact.*

This call invites students to present early results of their innovative research at ISSE 2026. We invite all undergraduate and graduate students working on or interested in the system engineering and related fields to submit an abstract for presentation at the IEEE ISSE 2026 student conference to be held in Dubrovnik, Croatia, on September 22 – 24, 2026. [Poster session will be on Thursday September 24, 2026.](#)

Each abstract will go through a review process to assess quality, level of the work, relevance, and methodological vigor. The presentation will be in-person (poster format).

Topics of Interest

Students working and/or interested in the system engineering areas including but not limited to system design, integration, hardware and software development, or management of a complete system are encouraged to submit an abstract.

Example of some topics are listed below:

Cyber Security	Robotics
Energy Management and Sustainability	Sensory System
Environmental Systems	Systems Architecture
Medical Applications	Systems Engineering
Modeling & Simulation	Transportation Systems
Ai Tools for Systems Engineering	Systems Engineering for AI-Augmented Systems

In-Person Poster Track

- Authors submit an abstract (1-2 page).
- Accepted abstracts are presented in form of posters in person at IEEE ISSE 2026.
- At least one author per paper must register to present the poster.
- There will be a special registration rate of \$25 for student poster authors.
- Authors should use the [IEEE Templates](#) for their paper submission

SUBMIT HERE: <https://edas.info/N34830>

EDAS Submission Instructions:

- Create an EDAS account
 - Visit the EDAS portal and click 'New Users'.
 - Fill in the required fields (name, affiliation, email, student status, country).
 - Check the Privacy box and click 'Add Person'.
 - Save your EDAS credentials.
- Abstract submission
 - Log into EDAS and select the appropriate submission track.
 - Enter paper title, abstract, and choose a topic area.
 - Click SUBMIT.

Scope, Length, Format:

- Abstract should be 1-2 page long, and it should:
 - Identify a clear and focused central topic that will be the subject of the presentation.
 - Outline a logical structure of ideas/argument/key takeaways/outcome that the presentation will include.
- Submissions must also include:
 - A descriptive title of the presentation.
 - The author and co-author(s) full name(s) and email address(es). Must include the Faculty Advisor's name.
 - The name of the university, program, and year of study in which the presenter(s) is (are) enrolled.
 - Include key words (Maximum 5)
 - Incorporate references to relevant research/contexts as needed.
