AUTHOR REGISTRATION GUIDELINES

An accepted paper will be published in the proceedings only if the registration payment for one of the authors is received and correctly processed by the deadline, no exceptions. One author who has paid the FULL NON-STUDENT "IEEE Member" or "Non-Member" registration fee may present up to two papers provided that the author is registered AND attends the Conference to present his/her paper.

Student or Daily registration fees cannot be used for the publication of an accepted paper. If the author registering to cover the paper publication is a student, he/she has to pay the appropriate member or non-member fee. Members to whom the society bylaws grant special discounts (e.g., Life members of the IEEE) cannot use the discounted rates to cover the publication of an accepted paper: they have to pay the member fee. In the case no registration has been received and correctly processed to cover the paper publication, the conference organizers will contact the authors before the paper is removed from the proceedings.
